

## Lab 11

### Part 1:

Rewrite the application from lab 10 so that it one state object instead of every form field individually.

### Part 2:

Write an application that shows a list of Books. Every book has an isbn, title, author and price. You should be able to add and remove books from the list. There should be a separate page to add a new book.

### Part 3:

Write an application that shows 2 different lists of tasks, a todo task list and a done task list. Every task has an task number and a name. You should be able to move tasks from the todo list to the done list and vice versa

### What to hand in?

1. Create a zip file with only App.js and all other necessary .js files for this lab. Do not send a zip of the whole directory because that is a large file.
2. Write a readme.txt file with the following content:
  - a) Status of the lab. Describe here if you finished all parts of the lab or not. If you did not finish the lab, describe which parts are finished, and which parts not. Describe clearly why some parts are not finished.
  - b) Write the following statement and sign with your name:

***I hereby declare that this submission is my own original work and to the best of my knowledge it contains no materials previously published or written by another person. I am aware that submitting solutions that are not my own work will result in an NC of the course.***

***I am aware that I am not allowed to share solutions with other students.***

***I am aware that if I submit only parts of this lab that points will be subtracted.***

***I am aware that if my lab submission does not contain this readme.txt file that I do not get points for this lab.***

***[your name as signature]***
